AGLC Grant Application Process

The Arkansas Grazing Lands Coalition (AGLC) has grant funds available to assist University of Arkansas Extension, Conservation Districts or grazing lands related organizations conducting projects (demonstrations, field days, workshops, etc) that educate Arkansans on improved grazing lands management. AGLC currently accepts applications year round. Only original application forms will be accepted. Forms that have been altered or reformatted will not be accepted. **Faxed copies will not be considered.** Use additional pages if necessary.

Each application will be considered on its own merit and will compete with other applications statewide. Because of the limited amount of funds available, some projects may not be funded for the full amount requested. If this occurs, the participant will be notified and given the opportunity to accept or reject the grant funds. If the participant accepts the grant funds, they must agree to pay any excess costs over the amount funded. Grant funds may be used for labor (not NRCS or Extension), facility rental, workshop supplies, meeting expenses, etc. While this grant does not require matching funds, priority consideration may be given to those projects that are collaborative and demonstrate the ability to generate assistance. Explain in question # 9 of the application if other funds, labor, or materials will be donated, or if existing funds will be used to assist in the implementation of the project. Funds will be distributed, on a reimbursement basis, after the event is completed and the final report has been submitted. Any publications (flyer, ad, article, agenda, etc.) associated with the project should mention partial funding by AGLC.

Final report should include ads/flyers promoting event, event agenda, actual number of participants, actual in-kind support (facility use, donated items, work hours of those not funded by grant, etc.), budget categories with actual expenses, and a brief narrative of the event. Final report is due within 30 days of project completion.

Review the following checklist before mailing your application.

- Application must be typed or printed. An application that cannot be read will not be considered.
- Complete the entire application, including both pages.
- Keep a copy of the application for your records.

Send the original application/final report to: **Stan Garner, 10827 Katydid Lane, Danville, AR 72833**

Participants will be notified of funding approval/denial within one month of receipt of application by AGLC. Grant approval is subject to the availability of funding. In the event that all activities and requirements are not met by recipient of grant, AGLC has right to withhold any and all funds.
