Macro Invertebrates Session

Youth Conservation Workshop

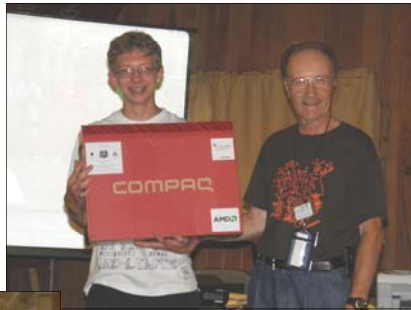

If you are interested in nature and would like to learn about conservation, we have the workshop for you. The camp will be held at Camp Clearfork Campgrounds near Mt. Ida June 26-July 1, 2011. The workshop is an educational partnership, hosted by AACD with partnering agencies including County Conservation Districts, Arkansas Forestry Commission, Cooperative Extension Service, Resource Conservation & Development, Arkansas Farm Bureau, Arkansas Game & Fish Commission and USDA Natural Resources Conservation Service.

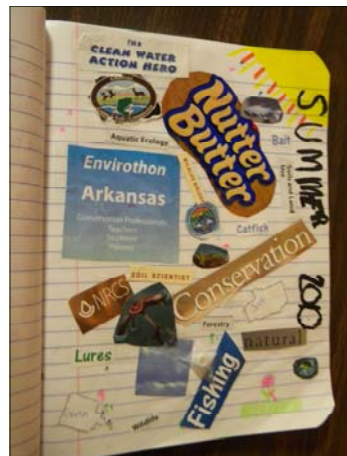

Our week will be an incredibly full one and we will have something planned for almost every minute of the day. Because the primary purpose of the workshop is educational in nature, we will make the most of the time available to us by working hard all week. We have planned the entire event with the participant's success in mind. We want them to learn and see new things and have fun doing it. We plan for them to be successful in every aspect of the workshop.

If you have questions, please do not hesitate to ask your local Conservation District office or one of the YCW Coordinators which are Brandy Gardner at 870-578-2444 x3 or Carolyn Holcomb at 870-523-8986 x3 or Cindy Thornberry at 479-234-2010.

2010 Scholarship Winners!
